La botte secrète de Macron pour disrupter la classe politique française

Le ministre de l'Economie mise sur le **«growth hacking»** une méthodologie empruntée aux start-up californiennes pour doper la croissance de son mouvement politique.

PROCESS

If you double the number of experiments you run per year, you're going to double your inventiveness.

Jeff Bezos, AMAZON

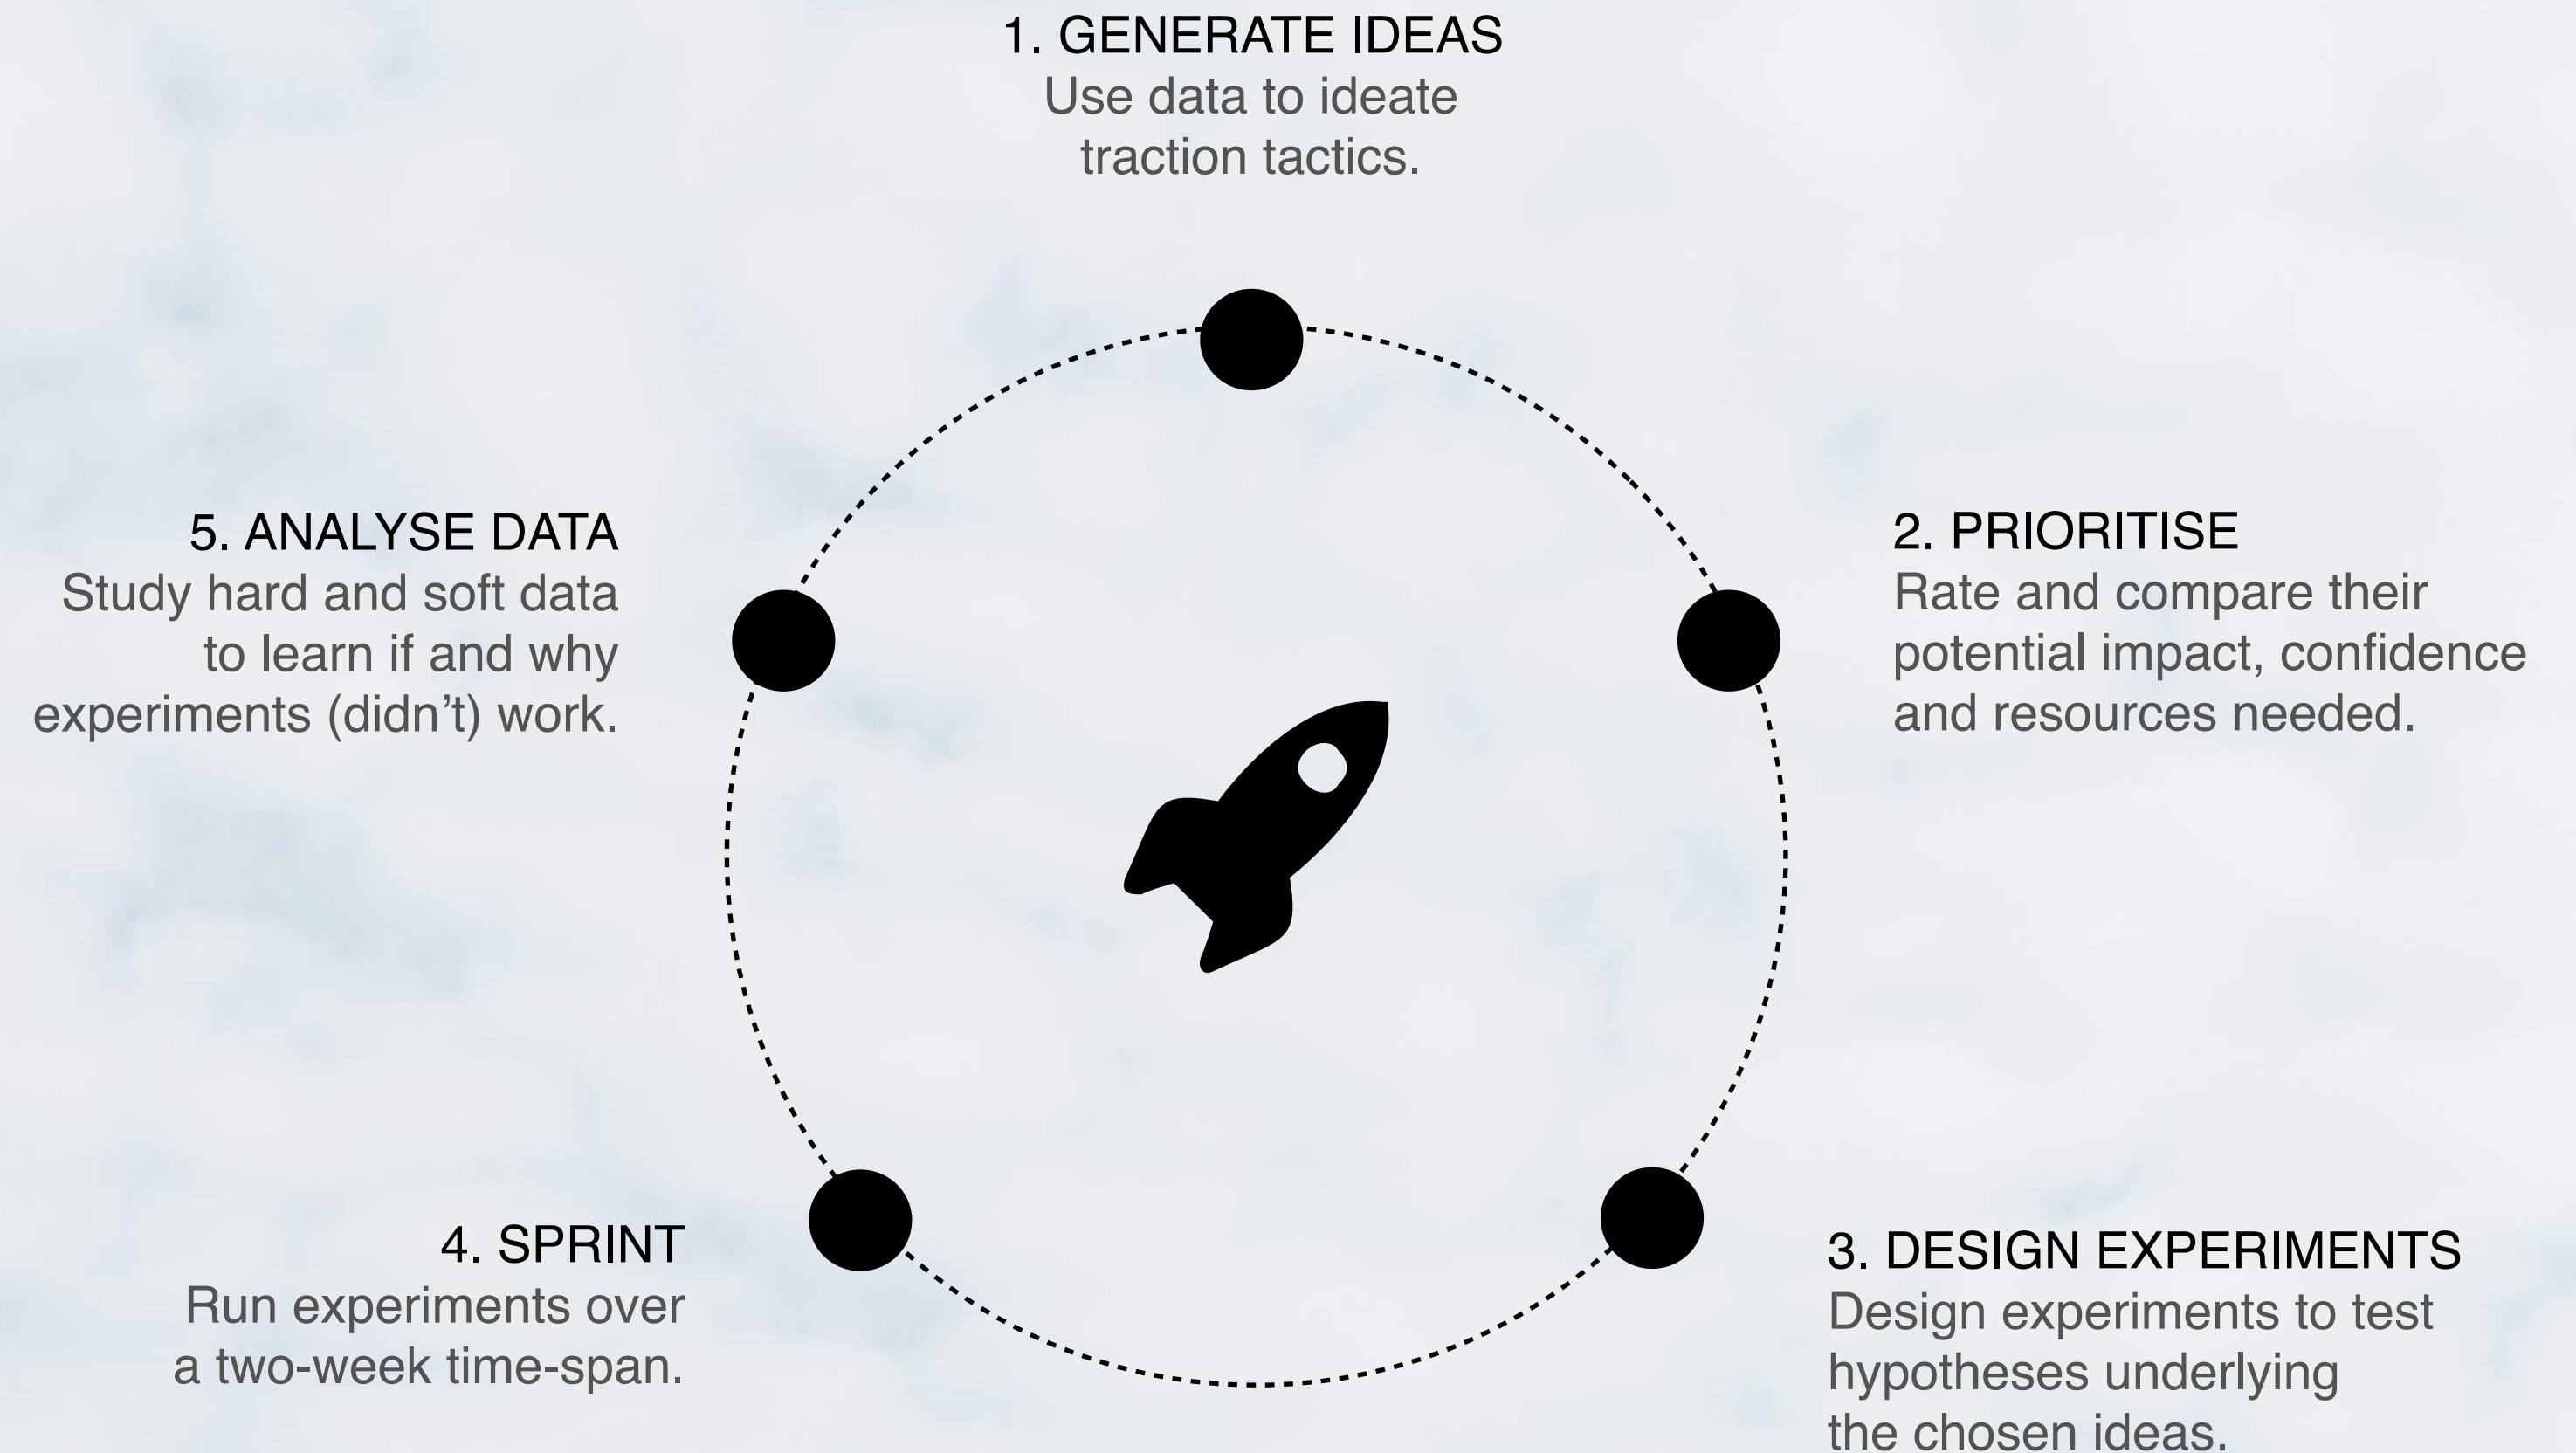

EXPERIMENT PROCESS

Experiment Design is about accelerating learnings about what drives growth and what doesn't.

We'll use data and creativity to come up with ideas, then run experiments to validate or dismiss our riskiest assumptions.

More experiments lead to better data, which in turn leads to better ideas, better experiments and finally more powerful tactics.
