# WHY/HOW?

We knew there were hidden values in onboarding

## PROBLEM/INSIGHTS

Limited tools to onboard new users

Data shows better onboarding increase CLV

Email is an effective channel but limiting reach  
(~ 50% open rate)

Difficult for new users to find full range of  
features offered

## TEAM

- 2 developers
- 1 editorial
- 1 analyst
- 1 UX
- 1 MA

## HYPOTHESIS

External CX-inspiration  
Internal analysis of customer behaviour

## PROTOTYPE

MVP onboarding pop up at Expressen

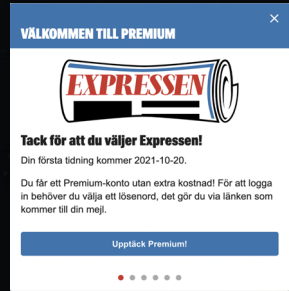

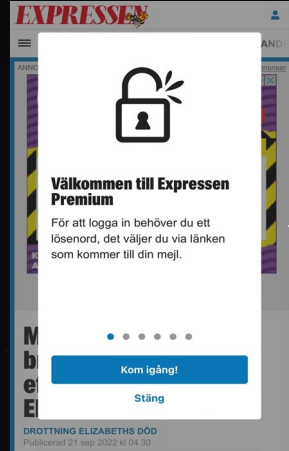

## OPTIMIZATION

Optimization of content & design

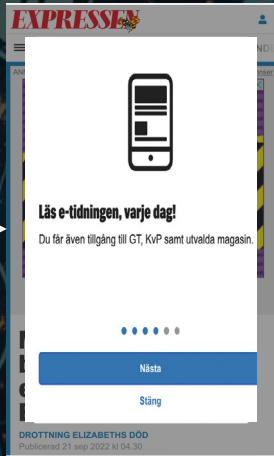

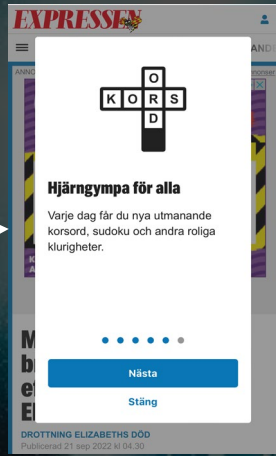

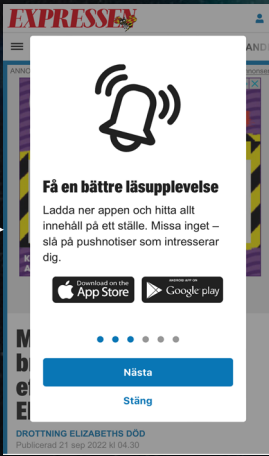

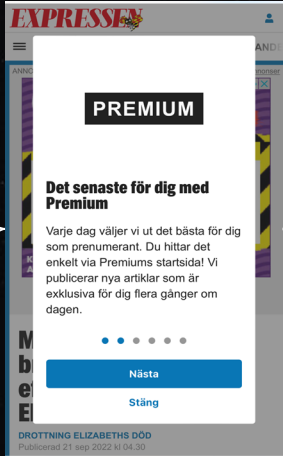

Every week thousands of new customers are exposed to our onboarding

# WHAT?

Pop up on website

- Segment: 2 customer types
- Guide to find the full range of features & content
- Recommendation to download app

*We worried about being invasive & too long  
but it rather **added** customer value*

# ALL ONBOARD

**FINALIST** at Global Wan-Ifra European Digital Media Awards  
Best Reader Revenue Initiative 2022

**60%** go further than the first slide

**48%** go through all slides in onboarding

**11%** higher 6 months CLV

## NEXT STEPS

Scale MVP to all our brands  
Interactiveness  
Smartness & trigger-based  
Cross sales offering

## TOP 3 INSIGHTS

- Start small, let users test early
- Iterative process
- Cross functional team

# ONBOARD ON RECEIPT

Engage new customers by reaching them directly

54% sets password to their digital account directly

ADD CTA DIRECT ON RECEIPT

One of the most valuable and easy action you can make

# PERSONALIZE ONBOARDING

Collect data to segment communication based on preferences

1. User creates profile by answering 2 questions

*Favourite content and subjects?*

*When do you want to read?*

CTA

*Activate your favourites in app*

*> Log in*

2. Use data to segment communication based on first / last login in app

Segmented push-notifications based on answers in step 1

# DATA IS KEY FOR SUCCESS

Make decisions based on customer behaviour and trends

*Right insights  
and scale best  
practices*

*Continuous data  
driven growth*

*Optimization  
over time and  
test*

*Optimize  
operations  
Way of working*

*Prediction of  
future trends and  
analysis*

*Actionable  
insights and  
KPI:s*

# 2 MIN TO REFLECT

What **learnings** did you get & how do you **start implementing** them tomorrow?

- *Do you have best practices for increasing scalability?*
- *Do you activate and onboard your users?*

# THANK YOU!
