Breathing face protection

Tiki products

Protection and clean air

The Tiki is an award winning protective respirator used for personal safety and productivity. It is one of the most technically advanced masks on the market for safety products and yet the easiest to operate.

The mask is fully automatic and adjusts the airflow to the user's demand thanks to the innovative pressure gauge. Tiki has built-in LEDs and is certified to the highest protection class for powered air purifying respirators (PAPR), EN 12942 TM3P.

Basic kits

TikiSTART

Contains everything you need to start using Tiki protection gear. Mask, harness, P3 filter, blower unit with internal battery, charger and a useful soft bag. Three different sizes of masks: S, M and L.

1050-51 TikiSTART Small

1050-52 TikiSTART Medium

1050-53 TikiSTART Large

TikiMULTI

Best choice for more than one user. TikiMULTI is delivered in a hard bag including two external batteries, blower unit without an internal battery (40 grams lighter), AC outlet charger and a car charger. Add a TikiUSER kit for each user with a choice of personal size of mask, harness, P3 filter and a soft bag.

1107-51 TikiMULTI

1073-52 TikiUSER Medium

1073-53 TikiUSER Large

TikiPRO

Best choice for a professional user working with the protective equipment on a daily basis. All the gear comes in a hard bag which also fits more masks. Contains a mask, harness, P3 filter, blower unit with internal battery, charger, and an external battery.

1113-52 TikiPRO Medium

1113-53 TikiPRO Large

Replacement parts

TikiFILTER

Exchangable P3 particle filters.

- 1005-51 P3 particle filters 2pcs
- 1005-52 P3 particle filters 120pcs
- 1005-53 P3 particle filters 60 x 2pcs

TikiMASK 5 pack

Exchangable masks.

- 1010-51 5-pack masks S
- 1010-52 5-pack masks M
- 1010-53 5-pack masks L

TikiUSER

Mask, harness and a filter in a soft bag. Mask sizes medium or large.

- 1073-52 Medium
- 1073-53 Large

Accessories

TikiCHARGER

Charger for AC outlets.

- 1013-51 Charger

TikiCAR

Car charger for 12-24V.

- 1080-51 Car charger

TikiEXTERN

Set with external battery, charger and cord. The external battery has a high capacity. It also has a belt clip for convenient attachment.

- 1007-51 External battery and charger

TikiHARNESS 5 pack

Soft harness to keep the mask in place.

- 1012-51 Harness 5 pack

TikiBAG

Protective soft bag for storing the mask and accessories.

- 1095-51 Tiki soft bag

Tiki is an innovative protective respirator for use in challenging environments that present the need to protect against airborne particles and bacteria. The blower unit in the mask automatically adjusts its filtered airflow to the user's demand. Manufactured in Sweden.

The Tiki is battery powered with an internal battery lasting for 1–2,5 hours depending on the load. There is a more powerful external battery as an accessory. The blowing unit is equipped with LED lights which facilitate work in dark conditions.

The particle filter protects against all types of particulate pollutants (P3). It's quick and easy to change both the filter and mask.

The filter is quadratic in shape to achieve a maximal filter surface and a long service life.

With the external battery, the blower can run for between 6 to 10 hours, depending on the load.

The blower unit regulates the blower speed in accordance with the amount of air needed to retain positive pressure within the protective respirator.

Some advantages of this are increased comfort, longer battery life, longer filter life, and a quieter blower.

An easy to use mask made out of PET and TPE plastics with a completely unobstructed view. The excellent view facilitates communication by allowing you to see the eyes and facial expressions of your co-workers.

It is also easy to use the phone while wearing the mask.

A durable harness with a soft and light-weight design for optimal comfort.
